●●● Connecting our future

Getting started

- **Use Q&A button** to ask a question anytime or to let us know about any technical difficulties.
- Questions will be answered after the presentation.

- This meeting is being recorded and will be posted online at **getinvolved.london.ca/eastlondonlink**

Agenda

- **Construction overview of East London Link Phase 4**
 - Project limits and construction stages
 - Anticipated restrictions
 - Access and special accommodations
 - Supports and communication
- **Q&A**

Presenters

Brian Nourse
Division Manager
Major Projects
City of London

Claudia Jaimes
Communications
City of London

Jim Xu
Construction Project Manager
Major Projects
City of London

Q&A panelists

Jennie Dann
Director, Construction and
Infrastructure
City of London

John Paul Sousa
Business Relations
Coordinator

London Transit
Commission

Jim Xu
Construction Project Manager
Major Projects
City of London

Jeff Kelso
Project Manager
AECOM

EAST LONDON LINK OVERVIEW

Rapid Transit in London

Rapid Transit in London

① The Downtown Loop (2021 – 2023)

② East London Link (2022 – 2026)

③ Wellington Gateway (2023 – 2027)

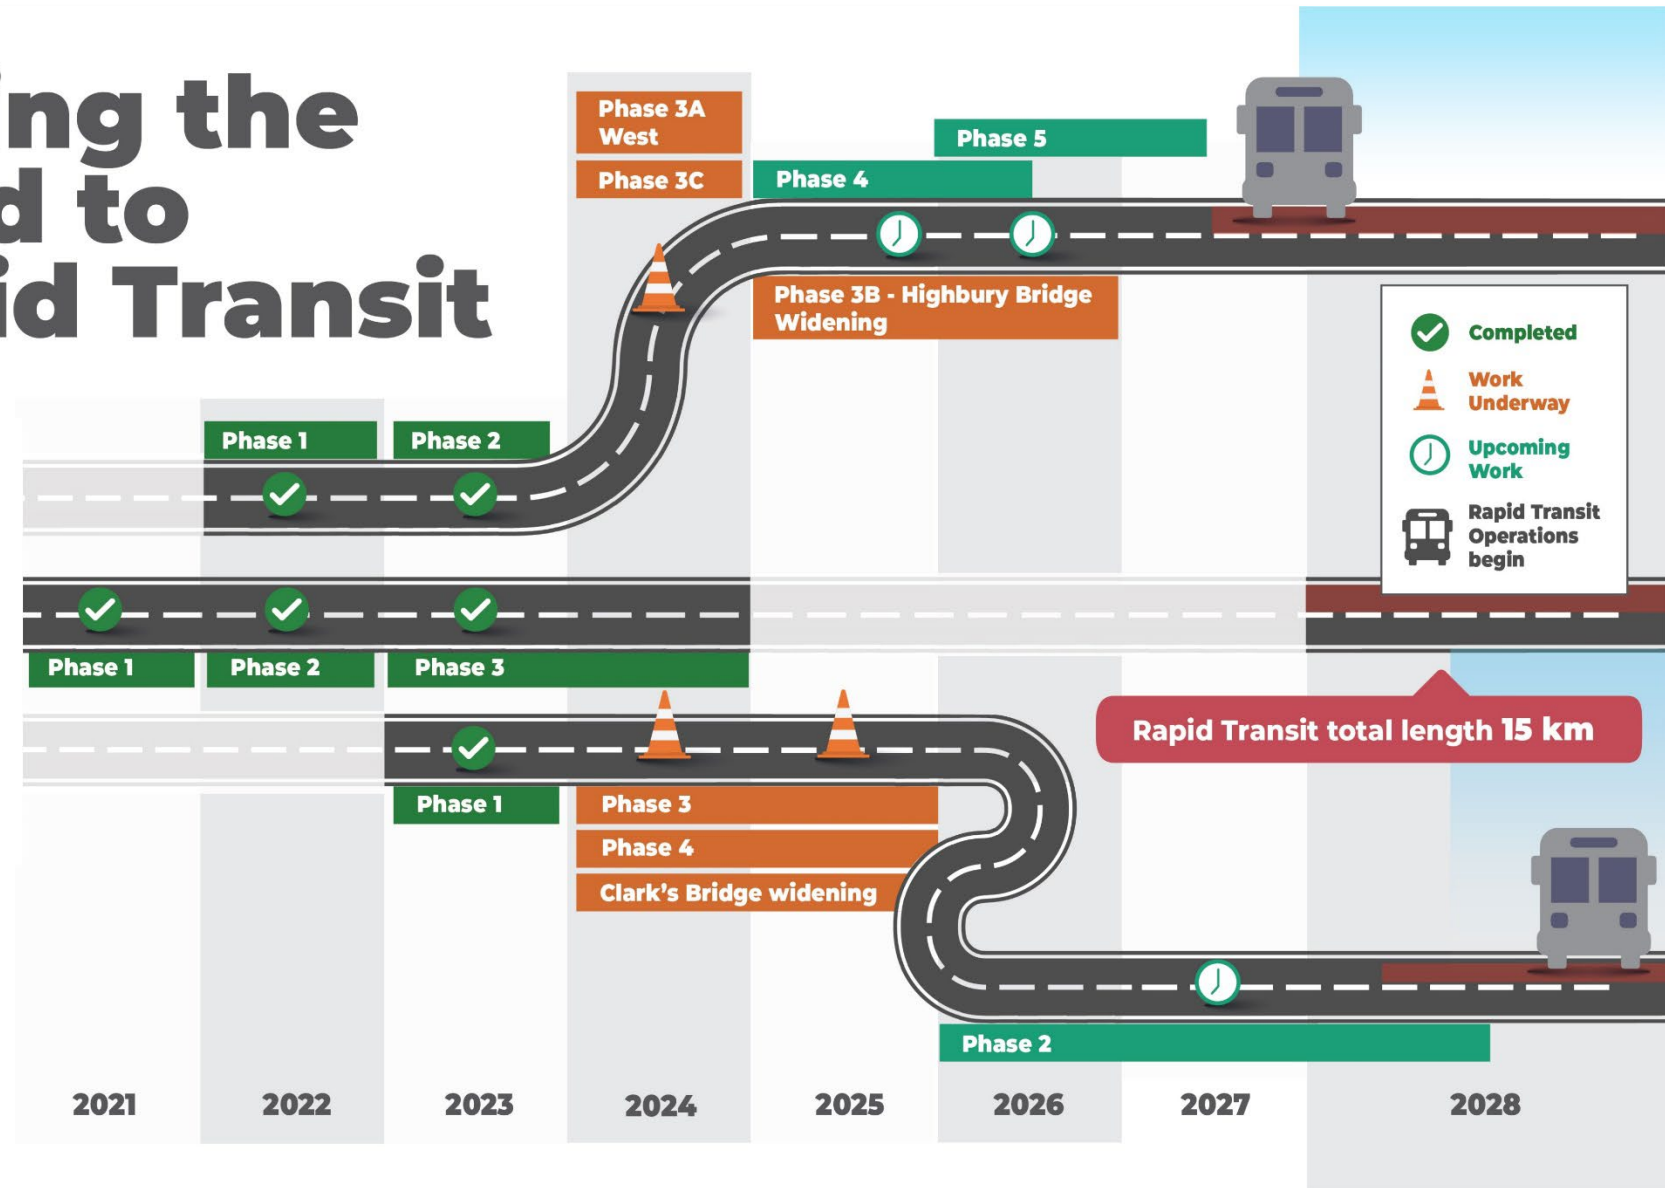

Paving the Road to Rapid Transit

East London Link

Downtown Loop

Wellington Gateway

The East London Link

The East London Link

The East London Link Phase 4

Centre-running transit lanes

Features:

Dedicated transit lanes in the centre of the road

Centre median to restrict left turns at non signalized locations

Protected Left/U-turn lanes at signalized intersections

Managing Construction

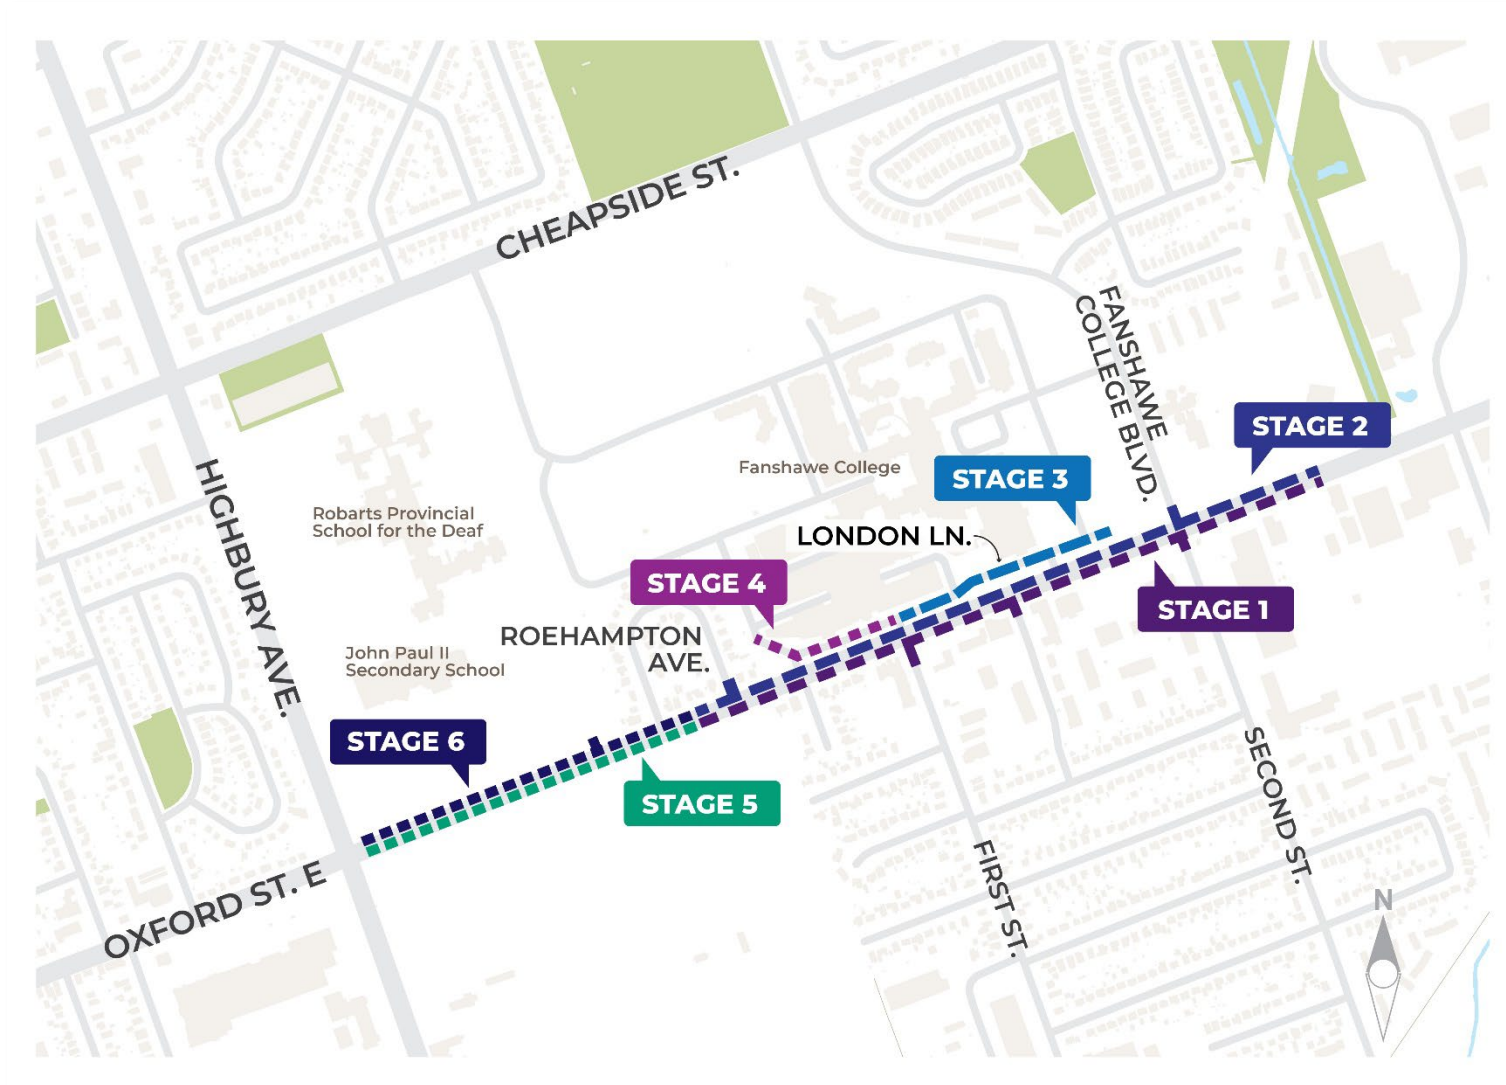

Phase 4 – Oxford Street

Construction limits and timeline

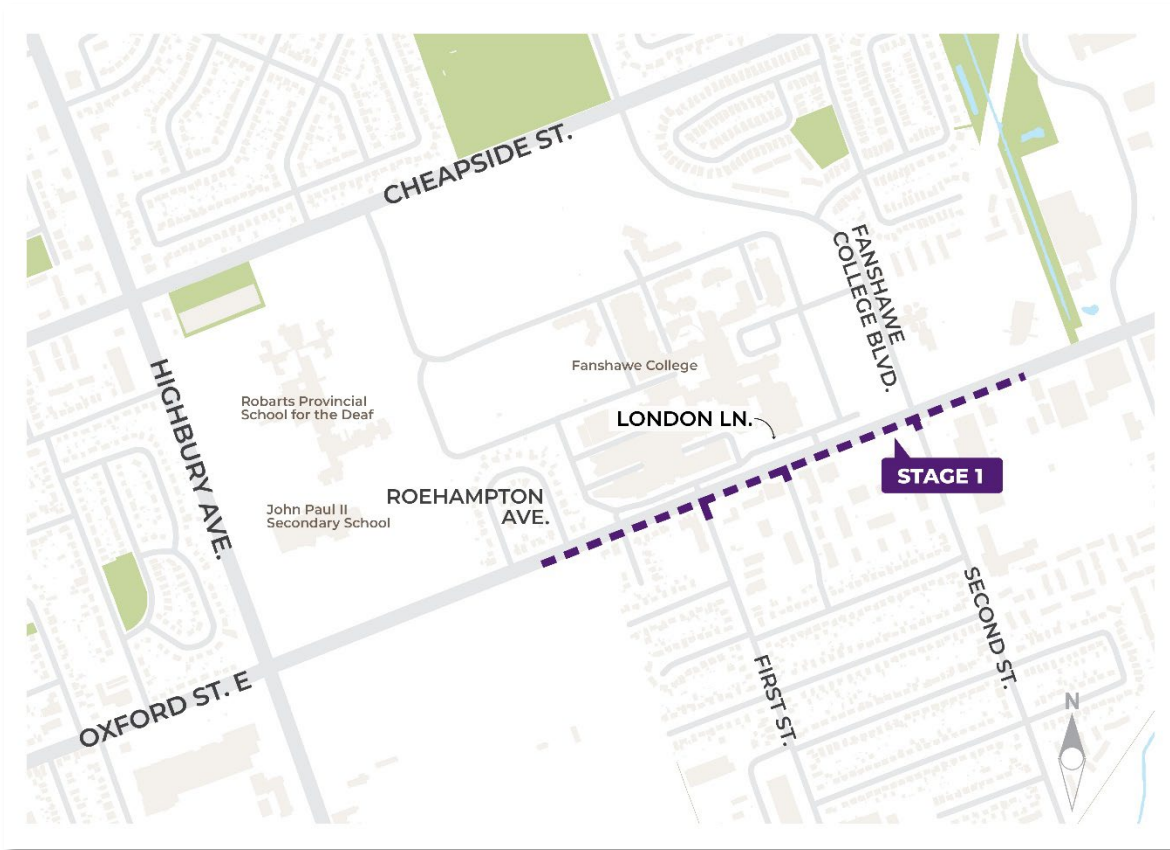

- **Construction limits:** Oxford Street from Highbury Avenue to just east of Second Street
- **Construction duration:** from March 2025 until approximately fall 2026

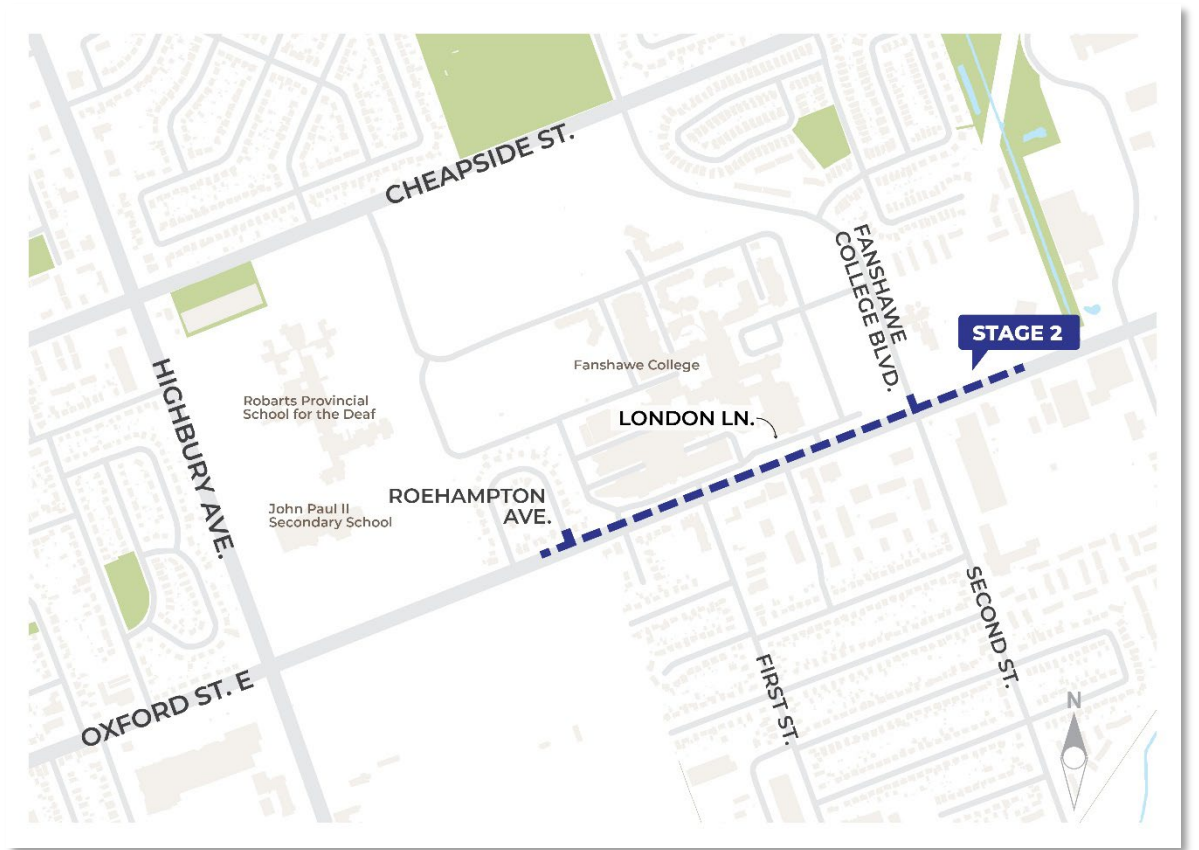

Construction stages

Construction stages

Stage 1*: South side of Oxford from Roehampton Avenue to east of Second Street

Stage 2: North side of Oxford from Roehampton Avenue to east of Second Street

Construction stages

Stage 3: London Lane east of First Street entrance

Stage 4: London Lane west of First Street entrance

Construction stages

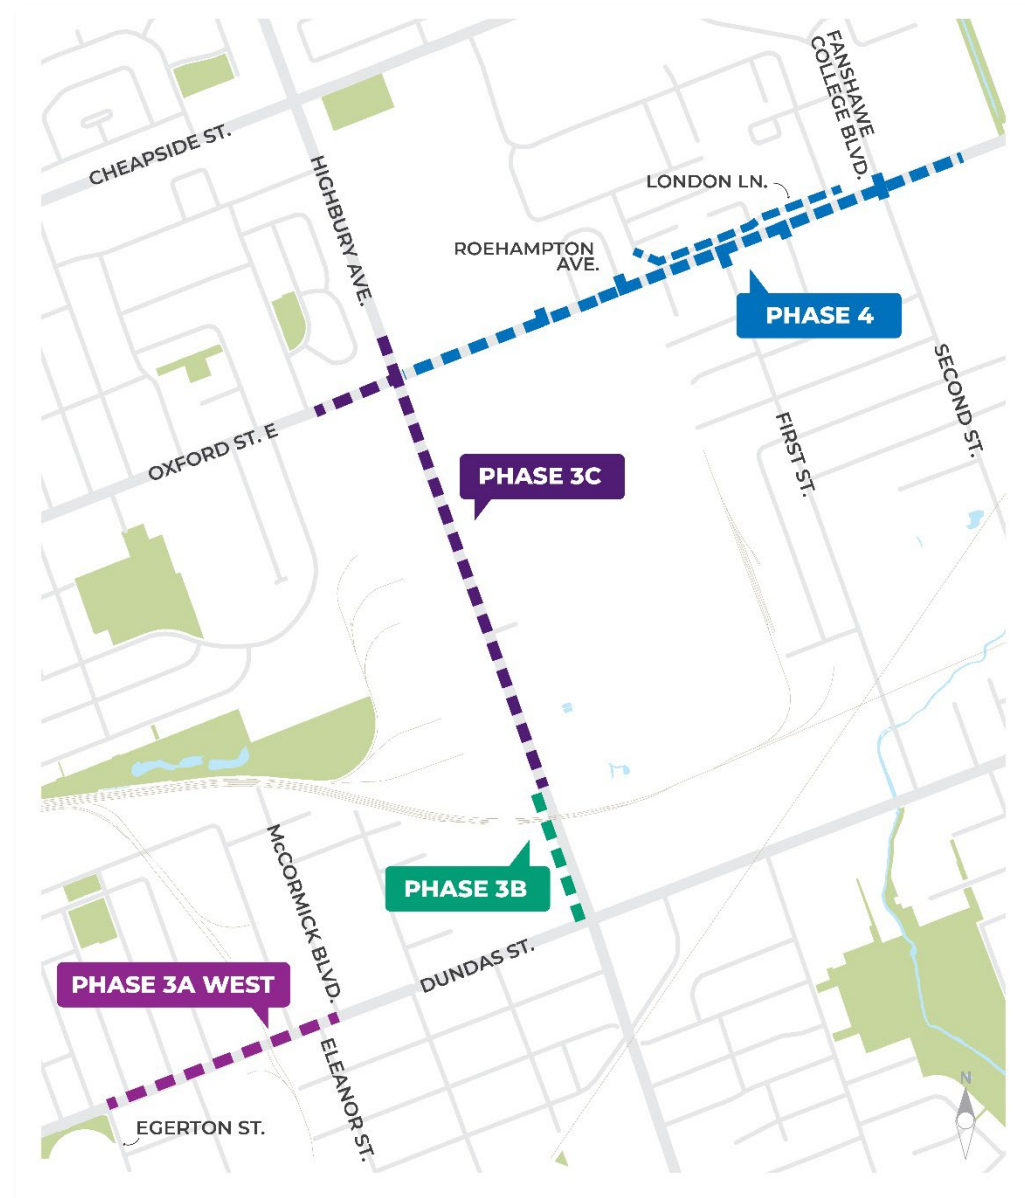

Stage 5: South side of Oxford from Highbury Avenue to Roehampton Avenue

Stage 6: North side of Oxford from Highbury Avenue to Roehampton Avenue

Nearby projects

- **Phase 3A:** Dundas Street between Egerton Street and McCormick Boulevard
- **Phase 3B:** Highbury Avenue south of the Highbury Overpass to Dundas Street
- **Phase 3C:** Highbury Avenue between Oxford Street and the north limit of the Highbury overpass

Anticipated impacts and access

Drivers

- Reduced lanes through the project limits along Oxford Street
- Turning movement restrictions and delays
- Access will be maintained to commercial areas, residences, Fanshawe College and John Paul II Catholic Secondary School during construction
- Have frequent deliveries with larger trucks? Please reach out to us, so we can help you find the best route possible

Transit

- Some LTC stops may be impacted while this work is underway. Transit riders are advised to visit the LTC website for service updates during construction

Anticipated impacts and access

Sidewalks

- Sidewalk and bike lane closures and restrictions will be required during construction, always maintaining safe pedestrian connections on at least one side of the road
- Wayfinding signs will be in place to help guide people walking through the construction zones safely
- If possible, use nearby streets to avoid these restrictions

Traffic calming measures

Examples of traffic calming resources

Service interruptions

- Scheduled service interruptions may occur during construction.
- You will be notified in advance via email, or with posted notes to your door.
- Please note that emergency interruptions may also occur during construction.

Supports and communications

John-Paul Sousa

Your Construction Business Relations Coordinator

jpsousa@london.ca | 519-661-2489 ext. 7687

- Discuss construction impacts on your business or property
- Get updates on project progress/timelines
- Notify the City of key dates that are important to your business
- Review options to maintain business access and operations
- Suggest improvements or share construction experiences

Jim Xu

Your Construction Project Manager

jxu@london.ca | 519-661-2489 ext. 5507

- Get information about changes to the construction site
- Discuss service interruptions
- Coordinate deliveries
- Resolve issues in the construction zone
- Ask about construction processes
- Get in touch with the contractor

Communications resources and enhanced signage

Construction update

East London Link

●●● Connecting our future

November 11, 2022

We're in the final stretch! Crews are focused on buttoning things up before the holidays, and hopefully you're noticing the area is looking less and less like a construction site and more like a road each day.

Storm sewer replacement is now complete in the west end near [Wellington Street](#) and King Street, and work to move and restore Enwave service is underway in this block. Access to King Street continues to be restricted at Wellington Street while this work is being completed, with temporary two-way access available at Waterloo Street for reaching properties within the Wellington-to-Waterloo Street block of King Street.

Sidewalk restoration work is more challenging than usual for crews right now, due to an industry-wide shortage of concrete powder. We are fortunate to work with resourceful contractors who are making every effort to complete as [much](#) as possible this year; however, any areas where we are not able to complete sidewalks will be left as temporary asphalt until we can return in spring to place final concrete. We will provide a final update on areas that will be carried over to 2023 in an upcoming [bi-weekly](#) update.

Following is a summary of work completed over the last two weeks, as well as a look at what's ahead.

We're committed to a safe, clean and accessible construction site.
