Sunningdale Road and Richmond Street Intersection Improvements

Public Update Meeting

January 15, 2024, from 12:00 - 1:00 p.m.

aecom.com

Engagement Guidelines

- Questions will be answered after the presentation, during the Q&A opportunity.

- This meeting is being recorded and will be posted online at **https://getinvolved.london.ca/SunningdaleRichmond**

Project Teams

Violetta Sypien, C.E.T.
Project Manager,
City of London,

Karl Grabowski P.Eng.
Manager, Transportation
Project Delivery
City of London,

Matt Fabiilli, P.Eng.
Project Engineer,
City of London

Josh Ackworth, C.E.T., PMP
Project Manager,
AECOM

Land Acknowledgement

The City of London is situated on the traditional lands of the Anishinaabek, Haudenosaunee, Lūnaapéewak and Attawandaron. We honour and respect the history, languages and culture of the diverse Indigenous people who call this territory home. The City of London is currently home to many First Nations, Métis and Inuit today. As representatives of the people of the City of London, we are grateful to have the opportunity to work and live in this territory.

Agenda

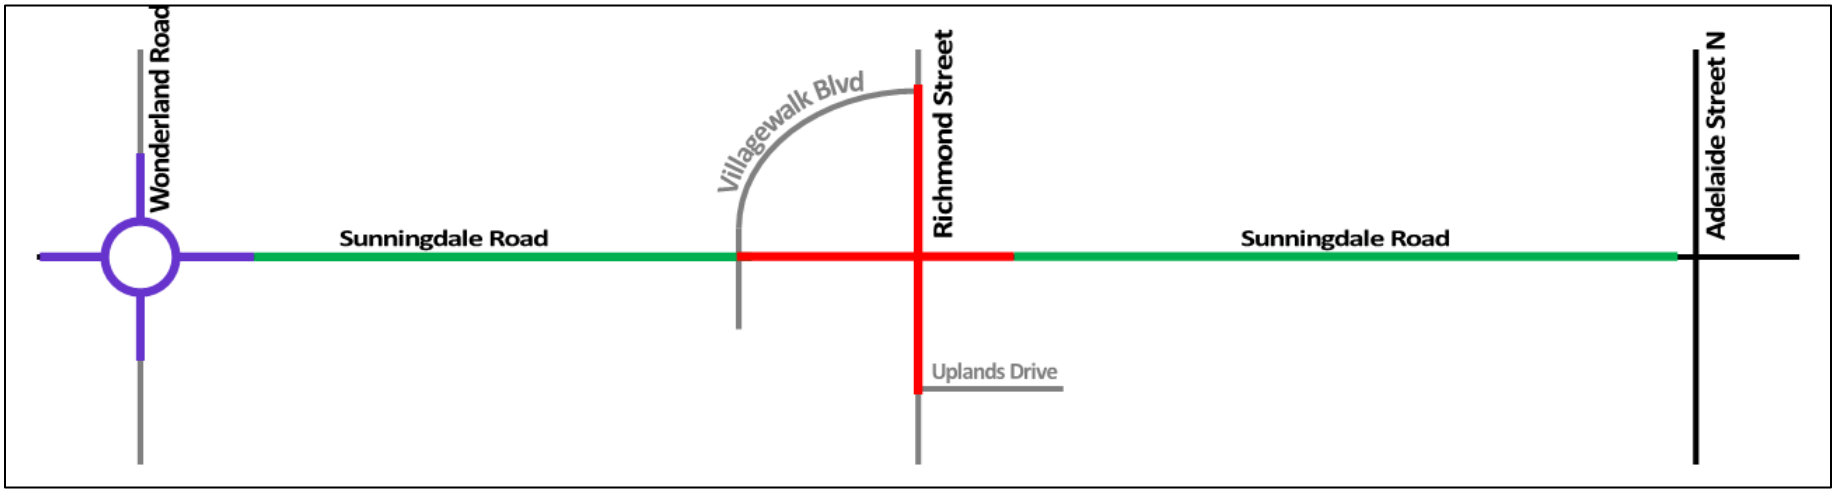

- Sunningdale Road Corridor Improvement Goals
- Sunningdale Road Improvement Phasing
- Intersection Design Progression
- Intersection Overview
- Key Improvements and Impacts
- Proposed Construction Staging
- Upcoming Activities Before Construction
- Future Meeting & Ways to Stay Connected

Sunningdale Corridor Improvements Goals

Through the Environmental Study Report (2012), a number of improvements were recommended for Sunningdale Road, including:

- Improve Sunningdale Road from two to four lanes
- Sidewalk and Cycling infrastructure throughout
- Intersection improvements at Wonderland Road, Richmond Street, and Adelaide Street
- Replacement of the Medway Creek Bridge, including a pathway underneath to a allow future connection

Sunningdale Improvement Phasing

- Phase 1 - Wonderland and Sunningdale Roundabout (Completed in 2015)
- Phase 2 - Sunningdale and Richmond Intersection (Targeted 2024)
- The Future Phases – Wonderland to Richmond and Richmond to Adelaide
  - The project team is continuing to progress the design of these phases and is evaluating all phasing alternatives to expedite the improvements where possible, based on securing necessary external approvals

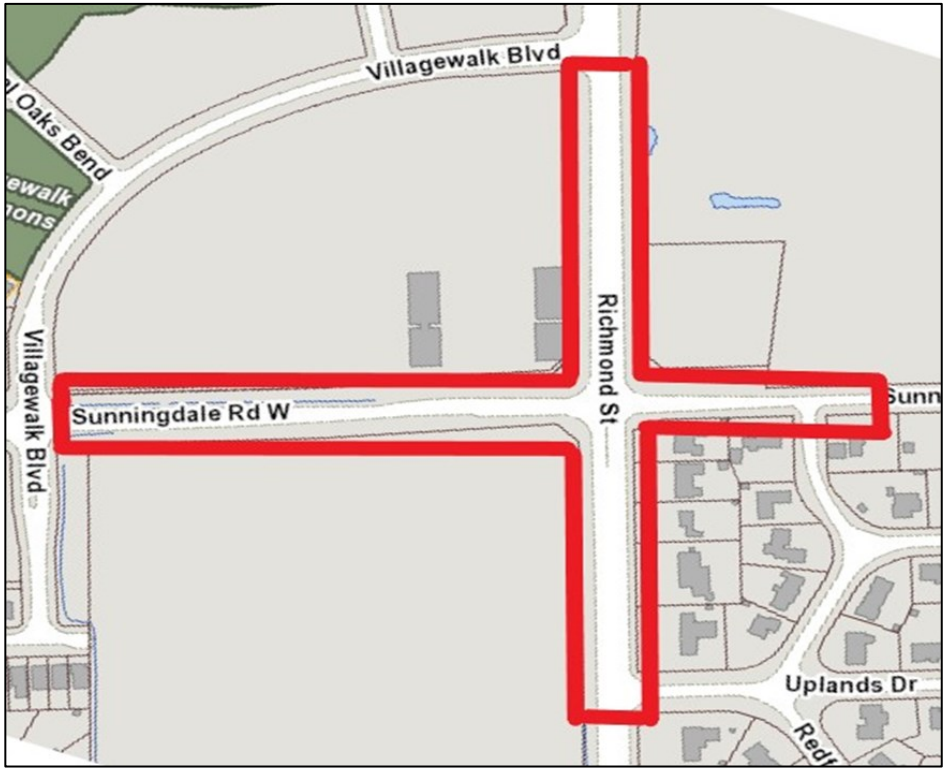

Sunningdale and Richmond Intersection – Design Progression

Step 1:	Class Environmental Assessment
Step 2:	Detail Design Start
Step 3:	60% Design Milestone
Step 4:	90% Design Milestone • Current Stage
Step 5:	100% Design Complete
Step 5:	Construction Tendering
Step 6	Construction Start • Targeted for Spring/Summer of 2024 - Subject to Permits and Approvals

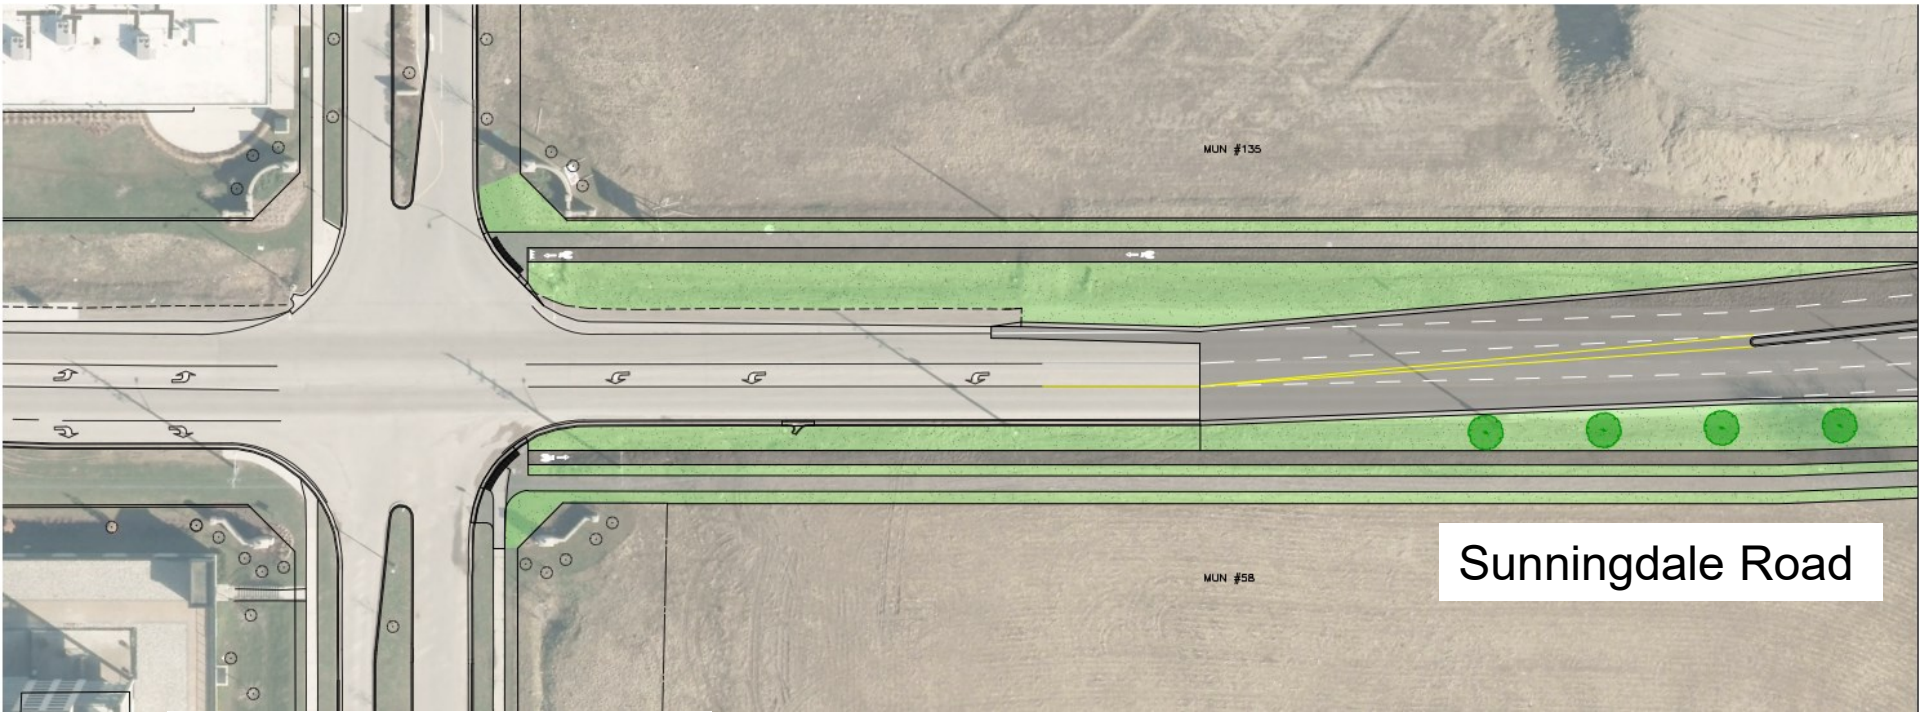

Sunningdale and Richmond Intersection – Design Feature Overview

The project Key Design Features include:

- Improving Sunningdale Road from 2 to 4 lanes, between Villagewalk Boulevard to Redford Road
- Construction of new in-boulevard bike paths and pedestrian sidewalks.
- Reconstruction of Richmond Street between Villagewalk Boulevard to Uplands Drive
- Construction of left/right turn lanes at the intersection
- Upgrade to underground infrastructure (storm sewers, and watermains)
- New Street Lighting and Traffic Signals
- New Median Islands and drainage

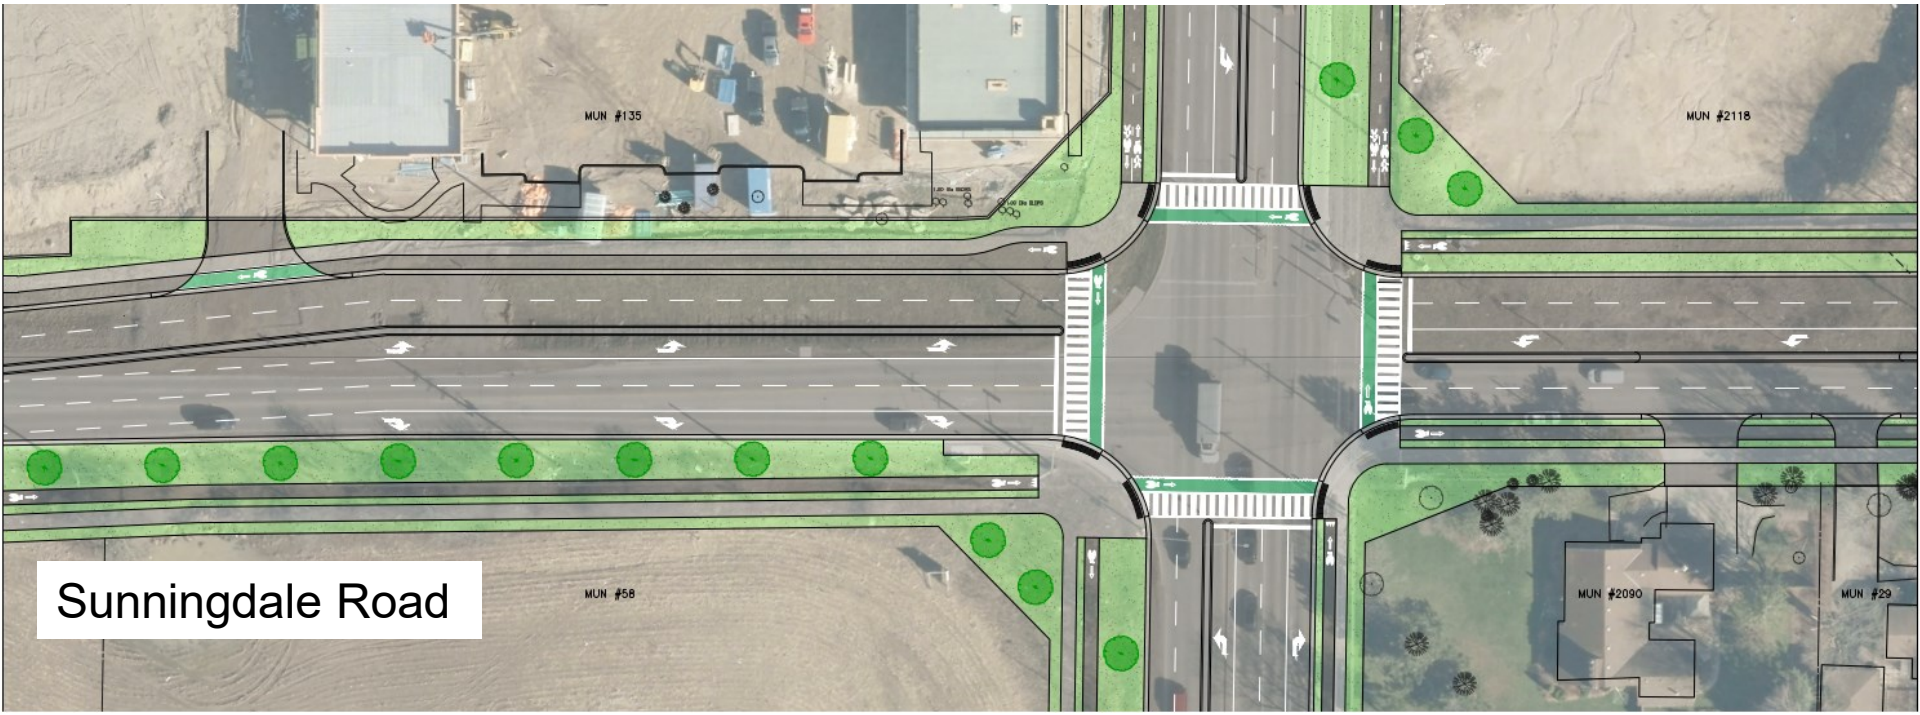

Sunningdale and Richmond Intersection – Key Improvements and Impacts

Access at Uplands and Richmond to be restricted to a Right Turning movements only

Proposed Cross Section

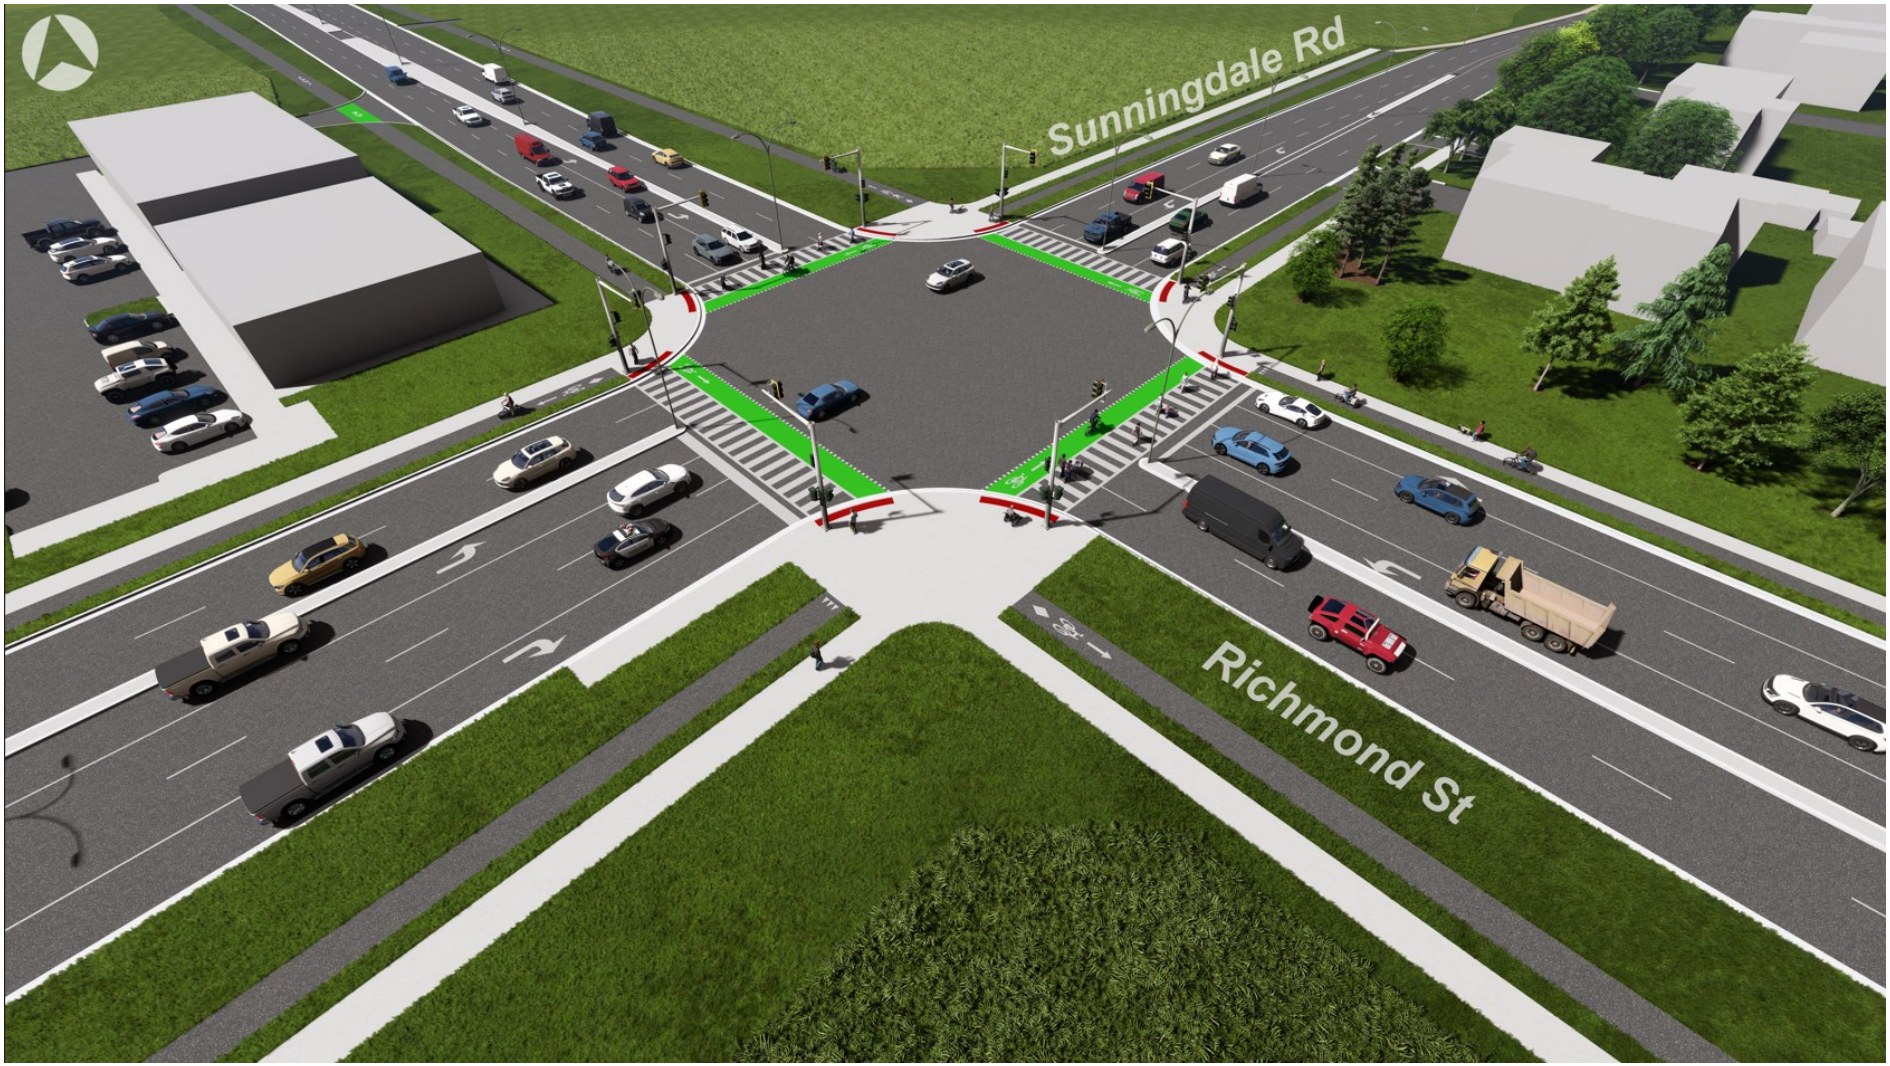

Proposed Cross Section

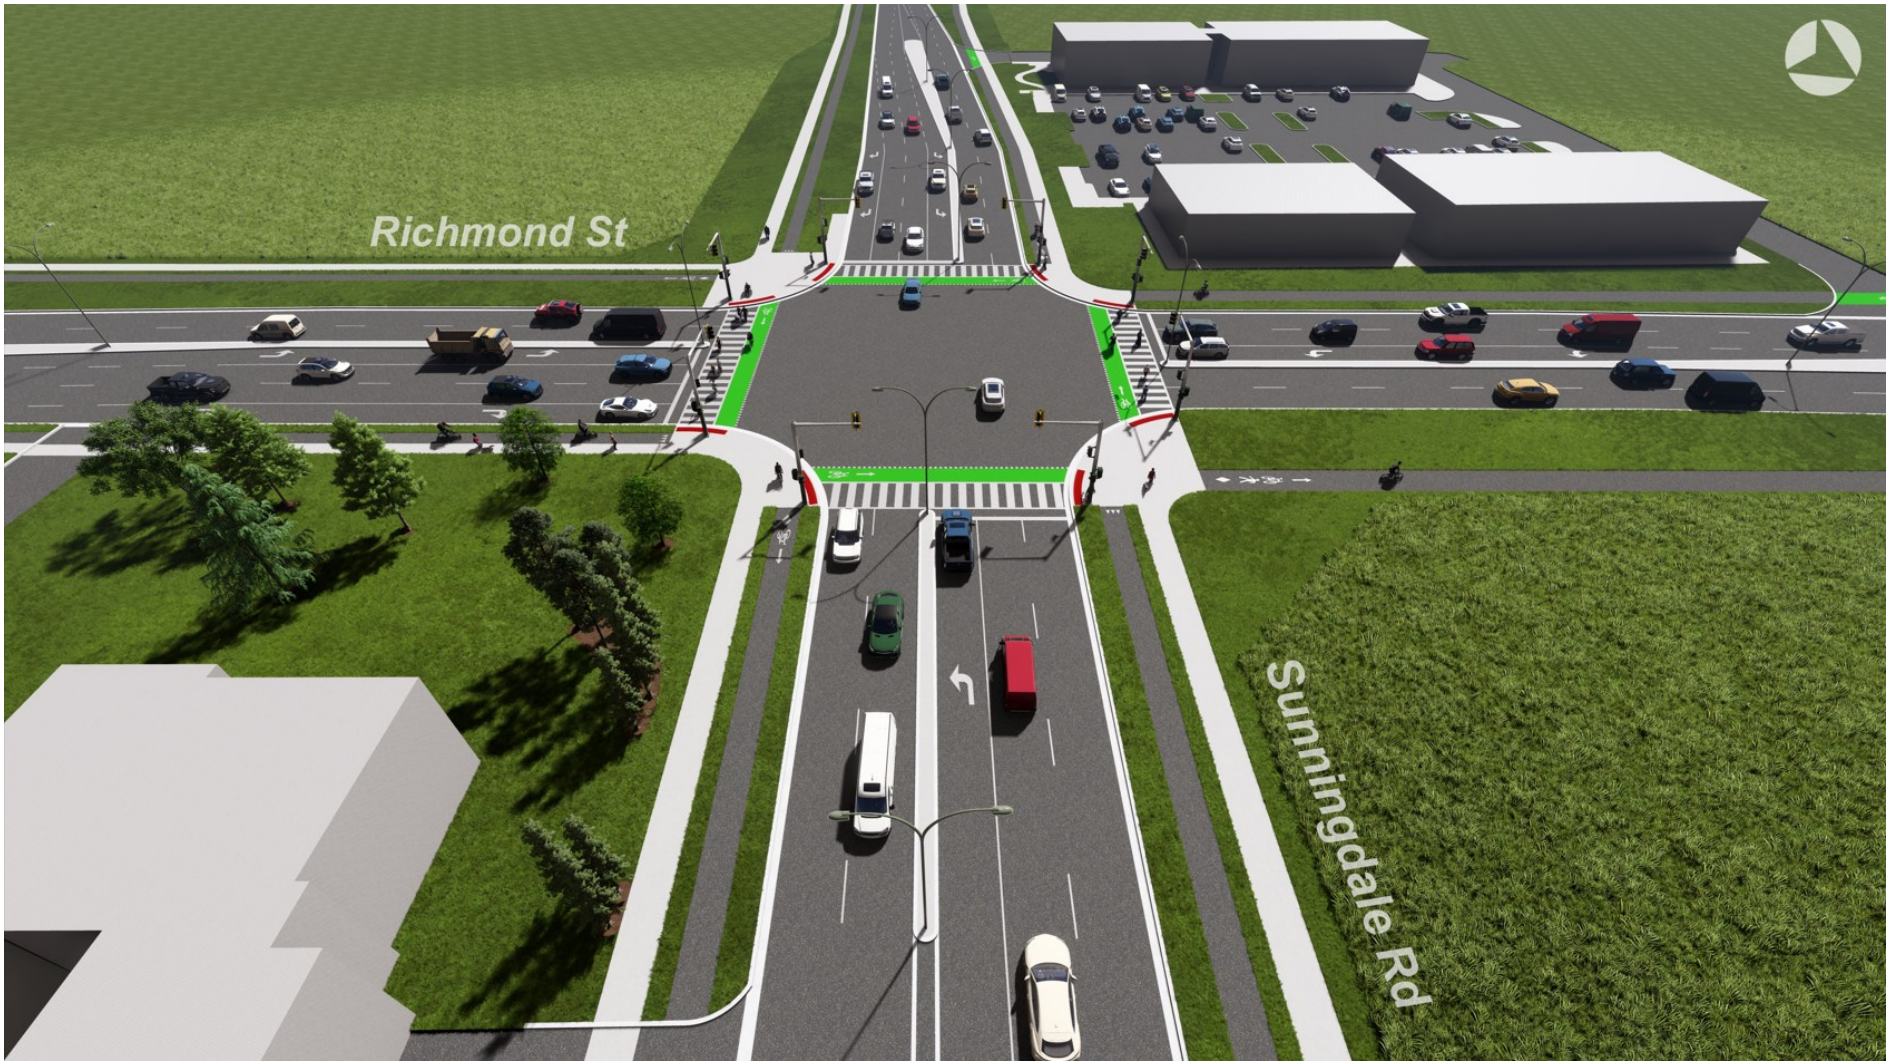

SUNNINGDALE ROAD – STATION 1+050 (C–C)

Sunningdale and Richmond Intersection – Renderings

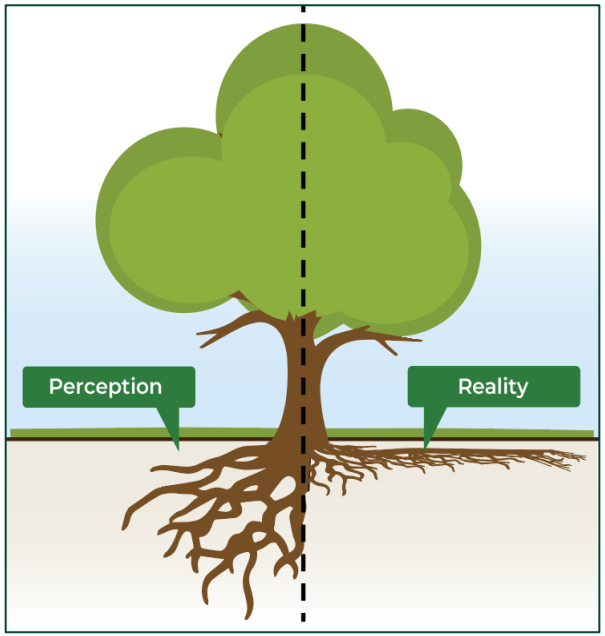

Sunningdale and Richmond Intersection – Renderings

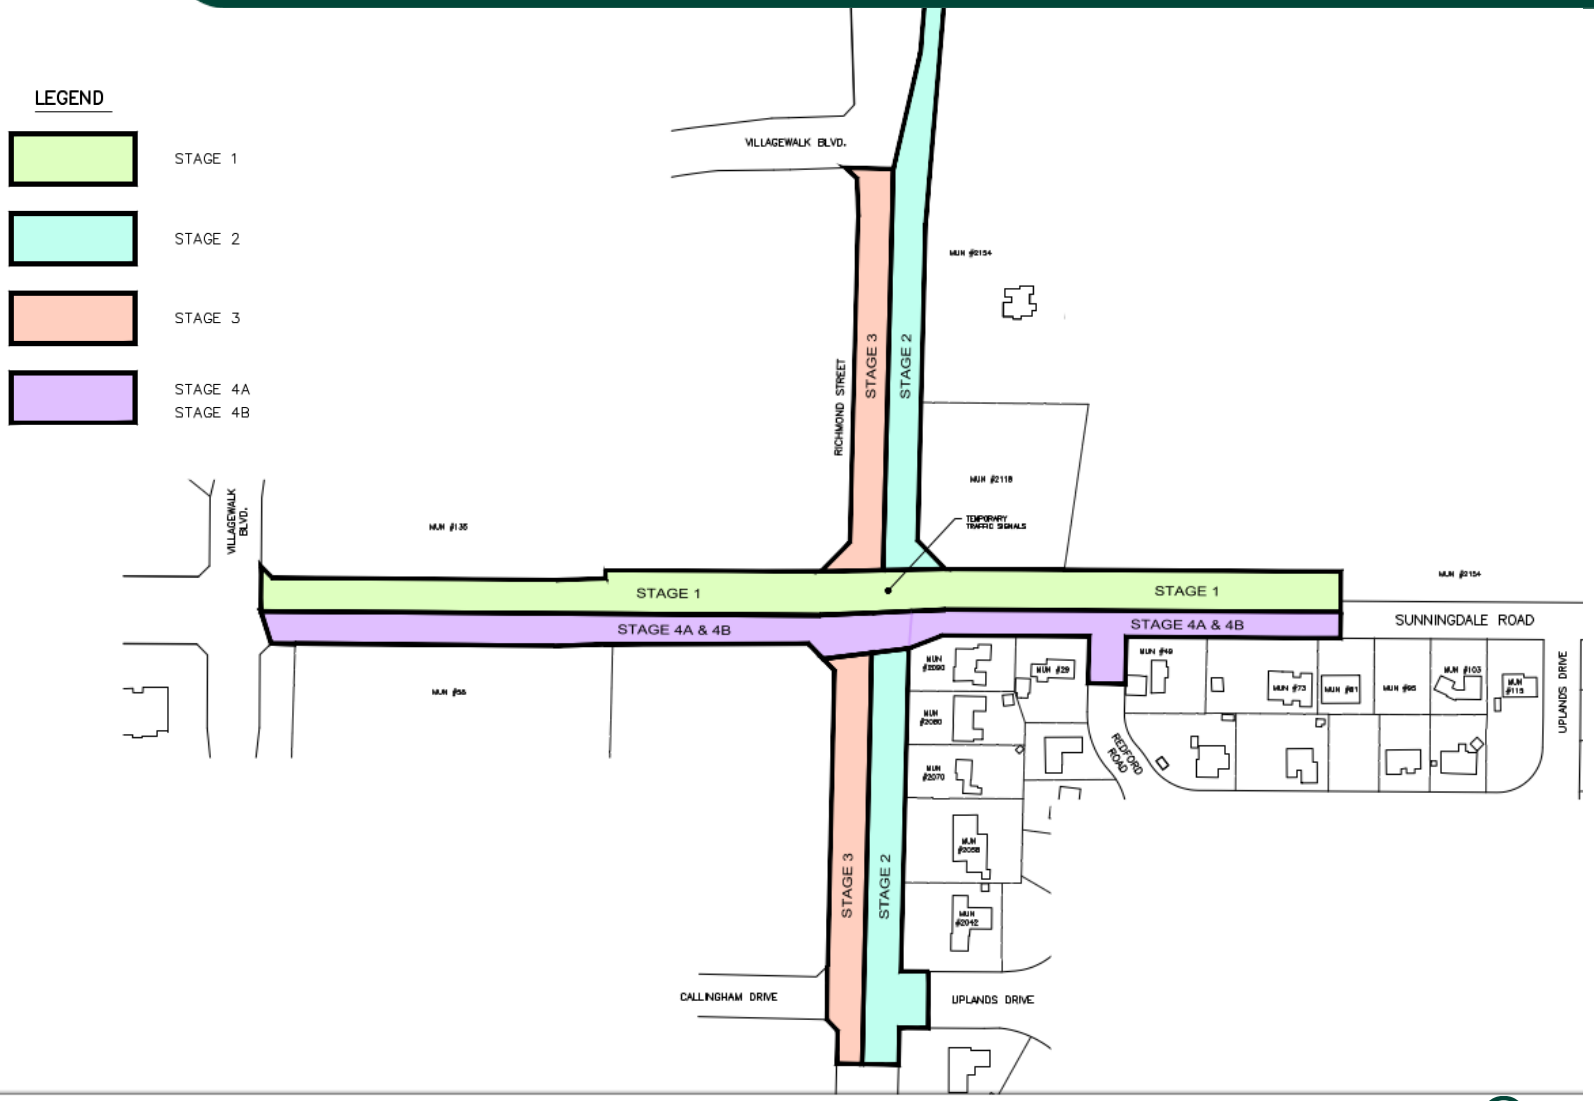

Sunningdale and Richmond Intersection – Tree Impacts

Areas impacted by Tree Trimming, Brush Removal, and Tree Removal

Proposed Construction Staging

Traffic Management

- Access to private properties will be maintained at all times
- Emergency Services access will be maintained at all times
- Advance notification of road closures will be provided
- Alternative route signing, and temporary traffic calming measures may be implemented where possible

Upcoming Activities Before Construction

Winter 2024,
Tree removals
/ Trimming

Winter 2024,
Utility
Investigation

Winter 2024,
Utility
Relocation

Future Meeting & Ways to Stay Connected

In-person drop-in questions session Tomorrow, Tuesday, January 16, 2024, from 5:00pm to 7:00pm, at the Stoney Creek Community Centre (920 Sunningdale Road East)

Visit our Get Involved website, ***getinvolved.london.ca*** where you can:

- Ask questions and leave comments for the project team.
- View the latest project materials.
- Access a recording of this meeting.

You can also reach us any time with comments or questions, using the contact information below. This presentation can be made available in alternative formats upon request.
