

Opportunities for Silverwoods Park

1. Existing asphalt areas on the site can be revised based on the current use of the site
2. Previous diving well may present an opportunity for a new seating/shade/viewing area as part of the park works
3. Existing fenced area could be removed, and used for park amenity space
4. Re-configuring the parking would open an opportunity for more park space
5. The areas adjacent to the building could transition to grass boulevards
6. Existing wading pool in good condition, however, the opportunity exists to convert to a Spray Pad is dependant on community input
7. Keep existing wading pool
8. Lighting improvements on the site
9. Adding lit sports courts would provide opportunities for the community
10. Maintaining as many of the existing trees on the site is preferred
11. Reducing the amount of asphalt around the existing building(s) opens up additional space for circulation and park amenity
12. Pool upgrades such as:
 - 12.1. stairs, railings, upgrades to filter room and provide heating to the pool
