**Basement
Flooding
Grant
Program**

Helping homeowners
reduce the likelihood of
basement flooding

Have you experienced basement flooding?

It can be a stressful and costly event, but did you know the City of London has a [Basement Flooding Grant Program \(BFGP\)](#) that may help alleviate some of the financial burdens?

To learn more about the eligibility criteria and how to apply, please visit [London.ca/BFGP](#) or contact us at **519-661-2489 ext. 5489** or email sewers@london.ca.

Our team is here to help you navigate the application process and provide the support you need.

Build a rain garden

A rain garden is a shallow garden with enhanced soils and a rock reservoir designed to collect rain water from downspouts, sump-pump discharge, or hard surfaces. They can be planted with a combination of shrubs, grasses and flowers.

Compared to a similar sized patch of lawn, a rain garden allows for 30% more water to soak into the ground!
