LEGEND

Dundas Street from Queens Park to Egerton Street

What to expect during construction

Mitigating construction impacts

Building on the results of the 2020-2021 construction survey, the City will continue to emphasize communication and coordination to minimize potential impact to residents and businesses during construction. Some key ways to support this include:

Resources will be provided to businesses to help navigate construction

Wayfinding signs to help communicate construction plans, detours and timelines

Construction Dollars to encourage and reward supporting local businesses during construction
