Project Notice:
Colonel Talbot Road 2-Lane Upgrade

Date: June 14, 2023

To: Business owner, resident and/or property owner

In response to ongoing and future development in the southwest part of the city, the City of London is preparing to upgrade Colonel Talbot Road from James Street to south of Southdale Road West, from a rural to urban road. This project is expected to begin in 2024 and is anticipated to last two (2) construction years. A map of the project limits is below for reference.

Map of Project Area – Colonel Talbot Road

About the Project

This project will convert Colonel Talbot from the current 2-lane rural road, with ditches and gravel shoulders, to a 2-lane urban road, with concrete curbs and gutter. Key elements such as sidewalks, streetlights, boulevard bike paths, landscaping features and pedestrian crossovers will be installed to enhance the comfort, accessibility, and safety for all road users through this rapidly growing community.

As part of this project, the intersection at Kilbourne Road is being reviewed to determine whether a signal or roundabout is most appropriate to accommodate current and future traffic demand. The entire corridor is being reviewed as well to improve traffic operations and safety, and determine strategic locations for turning lanes and localized medians.

Proposed Timeline:

- Public update meeting #1: June 27, 2023
- Public update meeting #2: Planned for Fall 2023
- Construction starts: Spring of 2024
- Construction ends: Fall of 2025 with minor cleanup and surface asphalt in 2026

Public Update Meeting

The City of London is hosting the first of two public meetings to provide information on how this project will transform Colonel Talbot Road. The first public meeting will take place on Tuesday June 27 from 5 - 7 p.m. at Lambeth Public School. This meeting is a chance to:

- View conceptual designs of the planned improvements.
- View the different options for the Kilbourne intersection and the recommended design.
- View plans for walking and cycling facilities and urban design features along the corridor.
- Learn more about plans for managing access along the corridor.
- Learn more about next steps.

Location: Lambeth Public School, 6820 Duffield Street

Date and time: Tuesday June 27. Drop-in between 5 p.m. and 7 p.m.

The materials presented at the meeting will also be posted by June 28 on the project's Get Involved website, at getinvolved.london.ca/colonel-talbot

Information received at the first public meeting will be reviewed and considered as part of the final design. A second public meeting is anticipated to take place in the fall of 2023. Information about this second meeting will be posted to the project's webpage and mailed to residents when it is confirmed.

Because you live, work, or own property near or within the immediate project area, we want to make you aware of this meeting. If you are a property owner with business or residential tenants, please pass along this information to them.

Contact Information:

The City of London is committed to keeping informed during construction. Please reach out to your Project Manager at any time.
