Dillon Consulting

EAST LONDON LINK OVERVIEW

Rapid Transit in London

Rapid Transit in London

① The Downtown Loop (2021 – 2023)

② East London Link (2022 – 2026)

③ Wellington Gateway (2023 – 2027)

The East London Link

2024 construction:
East London Link Phase 3C:

2024 construction:
East London Link Phase 3A:

The East London Link Phase 1

Location: King Street at Wellington Street

The East London Link Phase 2

The East London Link Phase 3

Dundas Street at Dorinda Street facing east

Highbury Avenue at Oxford Street East, facing north

Phase 3 limits

- **Phase 3A:** Dundas Street between Egerton Street and McCormick Boulevard
- **Phase 3C:** Highbury Avenue between Oxford Street and the north limit of the Highbury overpass
- **Servicing utilities:** Highbury Avenue south of the Highbury Overpass to Dundas Street

The East London Link Phase 3A West

Curbside transit lanes

Features:

- Dedicated transit lanes along the curb lane
- General traffic travels in the centre lanes
- Centre median to restrict left turns to controlled locations
- Protected Left/U-turn lanes at signalized intersections

Managing Construction

Phase 3A West – Dundas Street

Construction limits and timeline

- **Construction begins:** March 18
- **Construction duration:** The project is anticipated to be completed in December 2024, with some planned carry-over work in spring/summer 2025

Construction stages

Stage 1A: North side of Dundas Street between Egerton Street and Kellogg Lane

Stage 1B: South side of Dundas Street between Egerton Street and Burbrook Place

Access to side streets and industrial areas

Stage 1A

Stage 1B

Construction stages

Stage 2A*: South side of Dundas Street between Burbrook Place and McCormick Boulevard

Stage 2B*: North side of Dundas Street between Kellogg Lane and McCormick Boulevard

*Tentatively starting in the summer

Access to side streets and industrial areas

Stage 2A

Stage 2B

Nearby projects

East London Link Phase 2:

King Street, Ontario Street and Dundas Street – finishing work and paving (spring/summer)

East London Link Phase 3C: Highbury Avenue and Oxford Street (February – December 2024)

Adelaide Street Underpass: Adelaide Street North (Anticipated to wrap up by the fall)

Quebec Street:

Finishing work and paving (spring/summer)

Anticipated impacts and access

Drivers

- Reduced lanes through the project limits along Dundas Street
- Turning movement restrictions and delays
- Access will be maintained to commercial and industrial areas as well as residences.
- Have frequent deliveries with larger trucks? Please reach out to us, so we can help you find the best route possible.

Transit

- Some LTC stops may be impacted while this work is underway. Transit riders are advised to visit the LTC website for service updates during construction

Anticipated impacts and access

Sidewalks

- Sidewalk closures and restrictions will be required during construction, always maintaining safe pedestrian connections on at least one side of the road
- Wayfinding signs will be in place to help guide people walking through the construction zones safely
- If possible, use nearby streets to avoid these restrictions

Service interruptions

- Scheduled service interruptions may occur during construction.
- You will be notified in advance via email, or with posted notes to your door.
- Please note that emergency interruptions may also occur during construction.

Supports and communications

John-Paul Sousa

Your Construction Business Relations Coordinator

jpsousa@london.ca | 519-661-2489 ext. 7687

- Discuss construction impacts on your business or property
- Get updates on project progress/timelines
- Notify the City of key dates that are important to your business
- Review options to maintain business access and operations
- Suggest improvements or share construction experiences

Katelyn Goslin, C.E.T

Your Construction Project Manager

kgoslin@london.ca | 519-661-2489 ext. 5490

- Get information about changes to the construction site
- Discuss service interruptions
- Coordinate deliveries
- Resolve issues in the construction zone
- Ask about construction processes
- Get in touch with the contractor

Communications resources and enhanced signage

Construction update

East London Link

●●● Connecting our future

November 11, 2022

We're in the final stretch! Crews are focused on buttoning things up before the holidays, and hopefully you're noticing the area is looking less and less like a construction site and more like a road each day.

Storm sewer replacement is now complete in the west end near [Wellington Street](#) and King Street, and work to move and restore Enwave service is underway in this block. Access to King Street continues to be restricted at Wellington Street while this work is being completed, with temporary two-way access available at Waterloo Street for reaching properties within the Wellington-to-Waterloo Street block of King Street.

Sidewalk restoration work is more challenging than usual for crews right now, due to an industry-wide shortage of concrete powder. We are fortunate to work with resourceful contractors who are making every effort to complete as [much](#) as possible this year; however, any areas where we are not able to complete sidewalks will be left as temporary asphalt until we can return in spring to place final concrete. We will provide a final update on areas that will be carried over to 2023 in an upcoming [bi-weekly](#) update.

Following is a summary of work completed over the last two weeks, as well as a look at what's ahead.

We're committed to a safe, clean and accessible construction site.
