

HOMEVIEW ROAD BIKE LANES Project Notice and Design Information

The City of London is adding cycling improvements to Homeview Rd between Ferndale Avenue and Southdale Road East, with implementation tentatively scheduled for summer of 2024. This project will improve safety for people riding bikes and fill a gap in the cycling network between the existing White Oak Road bike lanes to the south and the existing Ferndale Ave bike lanes to the east.

The project will add painted bike lanes in alignment with current design guidance and the 2016 Cycling Master Plan. The design works within the existing road width to provide a dedicated space for cyclists while avoiding disruptive and costly road widening. New paint will be applied to the road surface to delineate two 3.0 m vehicle lanes and two 1.5 m cycling lanes. A result of narrow vehicle lanes is often reduced vehicle speeds. The proposed road configuration is illustrated in the rendering below.

At the intersection of Southdale Road and Homeview Road/ White Oak Road, this project will coordinate with a traffic signal rebuild project, which is also planned to be under construction this summer. The signal rebuild will widen the road at the intersection to maintain the vehicle and turn lanes while incorporating the new bike lanes.

Parking Changes

To accommodate the new bike lanes, on-street parking will be prohibited on both sides of Homeview Road. On-street parking is available on nearby side streets and is within 150 metres from any house (a two- to three-minute walk).

During the weekday times of 6:30 a.m.- 9:30 a.m. and 3:30 p.m.- 6:30 p.m. **no stopping** will be permitted on Homeview Road. This requires loading/ unloading, pick-ups/ drop-offs, and deliveries to take place on nearby side streets. At all other times, **no parking** will be enforced, which does allow temporary stopping for loading/ unloading and pick-ups/ drop-offs but does not allow parking.

Drop-in meeting

On Wednesday, May 29th, 2024, from 5:00 p.m. to 7:00 p.m. City staff will host an information session at Earl Nichols Arena inside the Multipurpose Room at 799 Homeview Road to answer any questions you may have about the project. Drop by at a time that's convenient for you to learn more about the project.

If you cannot attend the meeting and have questions or comments, please visit the project's webpage at getinvolved.london.ca/homeview or contact the City Project Manager by email or phone.

Next steps

Adding bike lanes on Homeview Road involves painting new bike lane markings and installing roadside signage. These changes are currently scheduled to take place in the summer of 2024 and a notice with any construction impacts will be provided approximately two weeks prior to the start of the work.
