

Downtown Plan Progress Update

The consultant team, in collaboration with the City of London, presented the Background Study to the Strategic Priorities and Policy Committee on **November 18, 2025**. Municipal Council received the report on November 25, 2025, and directed City staff to proceed with analyzing the feasibility of several proposed “quick start actions” that can be implemented in the short term while the final plan is being developed. The Background Study is now available for review on the project website: [GetInvolved](#). With this milestone completed, the project has officially entered its second phase - developing the Downtown Plan.

The Downtown Plan will establish a strategic vision and policy roadmap to guide change in the city’s Downtown over the next decade, setting priorities for land use, mobility, economic development, public space, cultural vitality, and environmental resilience.

To help refine the actions that will make up the Downtown Plan, the Consultant Team is beginning Phase 2 of the engagement process, which includes:

- **Online Engagement:** Ongoing promotion of engagement opportunities through the project website and social media platforms.
- **Meetings and Workshops:** One-on-one conversations, focus groups, and Downtown London Advisory Group meetings to help refine and finalize the proposed actions.
- **Public Consultation Events:** A virtual public meeting in early 2026 will give Londoners an opportunity to provide feedback on the proposed actions.

In this phase, participants will be able to directly comment on the proposed actions and support development of the implementation strategy for the final Downtown Plan. Keep an eye on the [GetInvolved](#) page and social media for upcoming participation opportunities.

Feedback from Phase 2 will be used to refine the final actions, and a summary of all engagement activities and findings will be included in the final Downtown Plan.

If you require any accommodation to fully participate in the engagement process, or have a comment or question regarding this project, please contact the Downtown Plan project team using the contact information below.
