Keep our skies bird friendly

Did you know that 25 million birds – including 23 bird species at risk – die in Canada from crashing into windows each year?

We can all work together to create a safer and more environmentally friendly experience for migrating birds. Limiting our light at night and transitioning to window treatments that stop birds from flying into buildings not only protects them but also cuts back on energy costs.

Don't put **FATS, OILS** and **GREASE** (FOG) down the sink

Take a cup, fill it up and put it in your Green Bin!

Common forms of household FOG that plug your drain and pipes: gravy, salad dressing, bacon grease, cooking oil, dairy products, butter, soup and margarine.

Use a container to dispose of FOG

1
Pour FOG waste into cup.

2
Put the lid on, store cup in the freezer or fridge to harden.

3
Once the cup is full, place it in the Green Bin or take it to a City EnviroDepot.

Drop off and pick up cups at City EnviroDepot locations.

28 Clarke Rd.

3502 Manning Dr.

1450 Oxford St. W.

21462 Clarke Rd.

london.ca/yourturn

Cups can be picked-up at the London Public Libraries.
