

East London Link Phase 3

Pre-construction webinar for Phase 3C

Highbury Avenue between Oxford Street East and
the north limit of the Highbury Avenue overpass

london.ca/eastlondonlink

●●● Connecting our future

Getting started

- **Use Q&A button** to ask a question anytime or to let us know about any technical difficulties.
- Questions will be answered after the presentation.

- This meeting is being recorded and will be posted online at **getinvolved.london.ca/eastlondonlink**

Agenda

- **Construction overview of East London Link Phase 3C**
 - Project limits and construction stages
 - Anticipated restrictions
 - Access and special accommodations
 - Supports and communication
- **Q&A**

Presenters

Andrea Hamilton
Program Manager, East
London Link Project
City of London

Claudia Jaimes
Communications
City of London

Alex Williams
Construction Project Manager,
Major Projects
City of London

Q&A panelists

London Transit
Commission

EAST LONDON LINK OVERVIEW

Rapid Transit in London

Rapid Transit in London

① The Downtown Loop (2021 – 2023)

② East London Link (2022 – 2026)

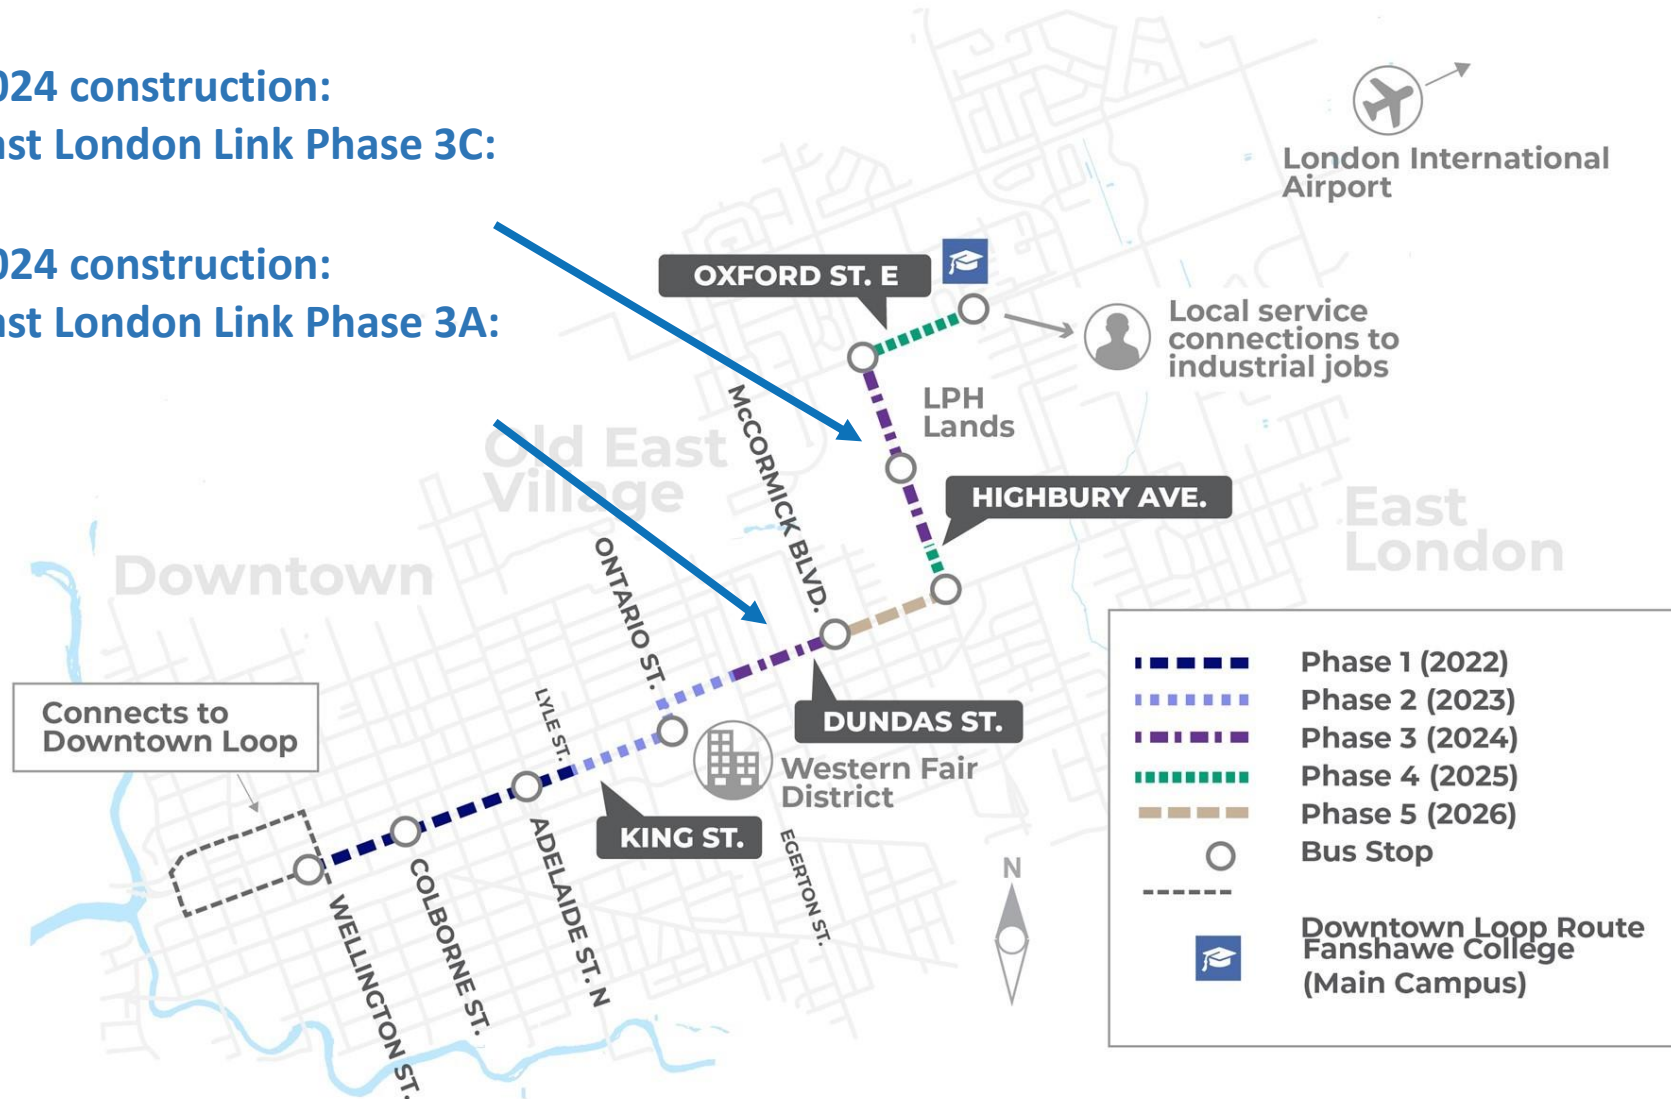

③ Wellington Gateway (2023 – 2027)

The East London Link

2024 construction:
East London Link Phase 3C:

2024 construction:
East London Link Phase 3A:

The East London Link Phase 1

Location: King Street at Wellington Street

The East London Link Phase 2

The East London Link Phase 3

Dundas Street at Dorinda Street facing east

Highbury Avenue at Oxford Street East, facing north

Phase 3 limits

- **Phase 3A:** Dundas Street between Egerton Street and McCormick Boulevard
- **Phase 3C:** Highbury Avenue North between Oxford Street and the north limit of the Highbury overpass, and along Oxford Street from just a few metres east of the Highbury Avenue intersection to near Wistow Street.
- **Servicing utilities:** Highbury Avenue south of the Highbury Overpass to Dundas Street

The East London Link Phase 3C

Centre-running transit lanes

Features:

Dedicated transit lanes in the centre of the road

Centre median to restrict left turns at non signalized locations

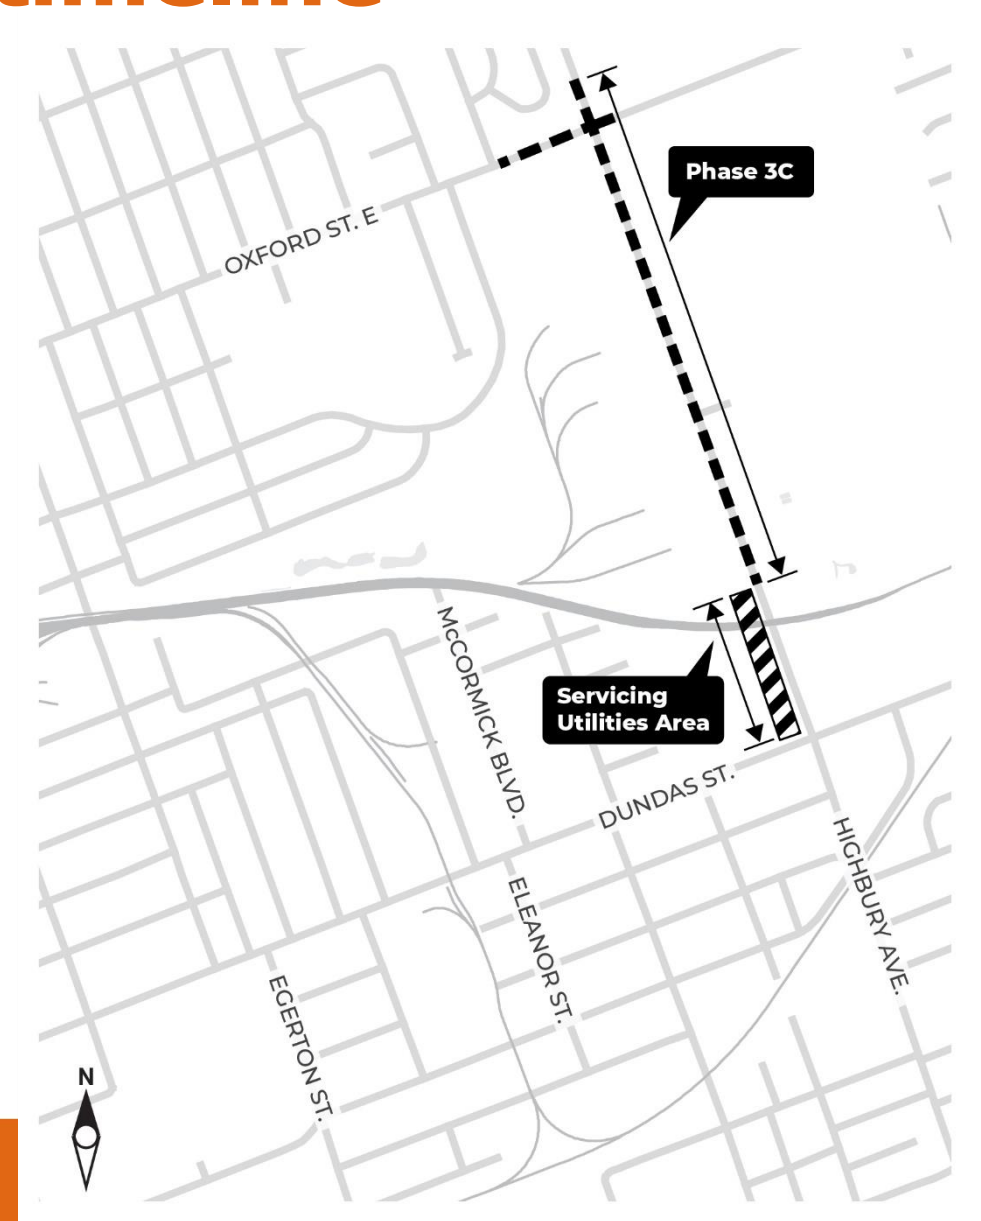

Protected Left/U-turn lanes at signalized intersections

Managing Construction

Phase 3C – Highbury Avenue North

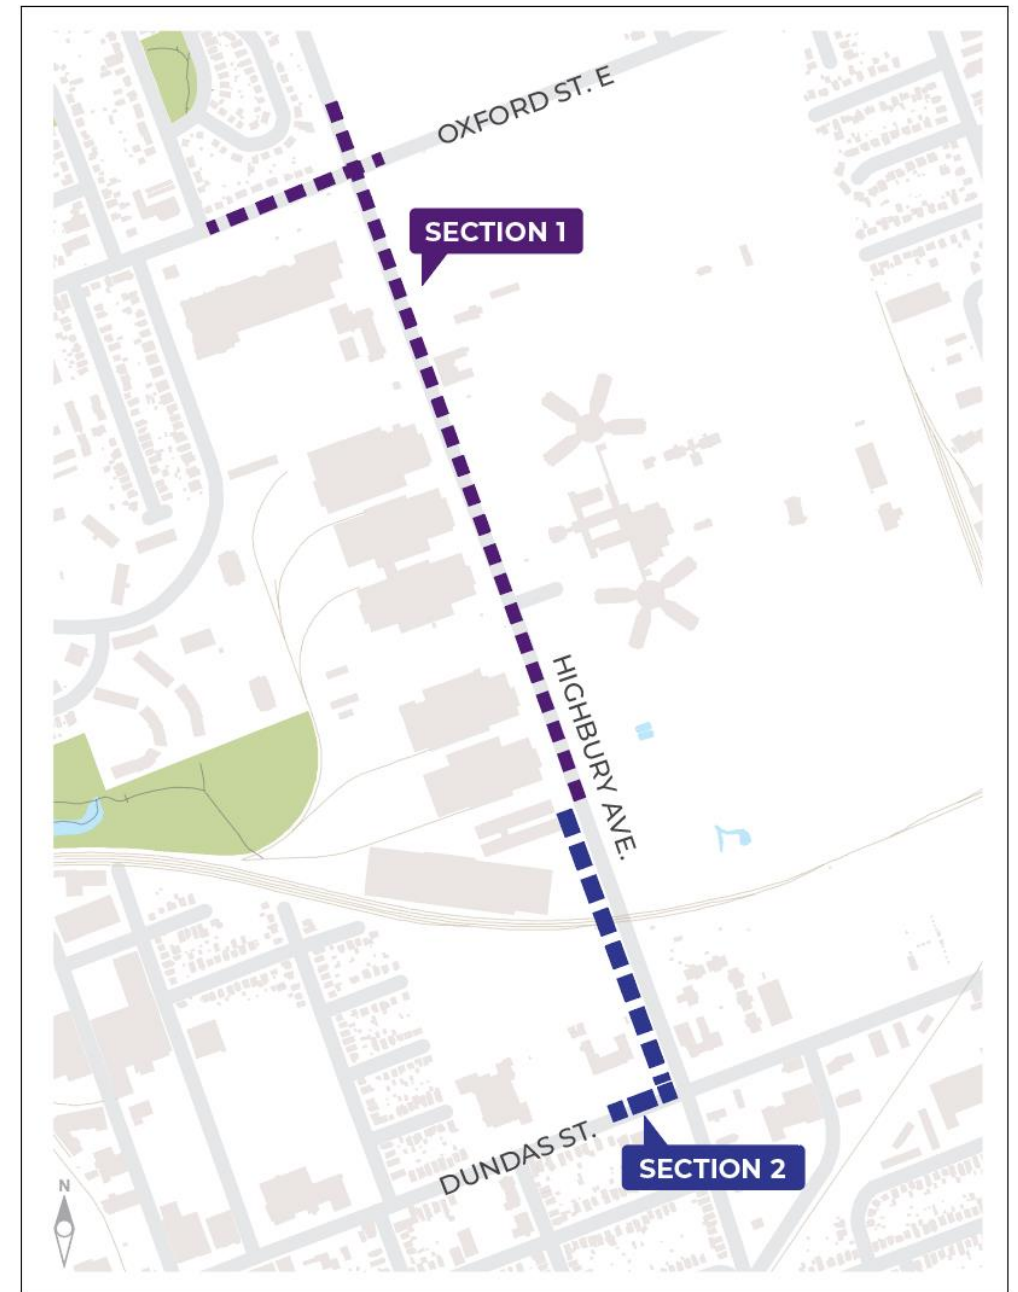

Construction limits and timeline

- **Preparatory work:** Underway (traffic control, temporary traffic signals, etc.)
- **Construction begins:** Week of February 26
- **Construction duration:** Construction is anticipated to be completed in December 2024, with some planned carry-over work in spring/summer 2025

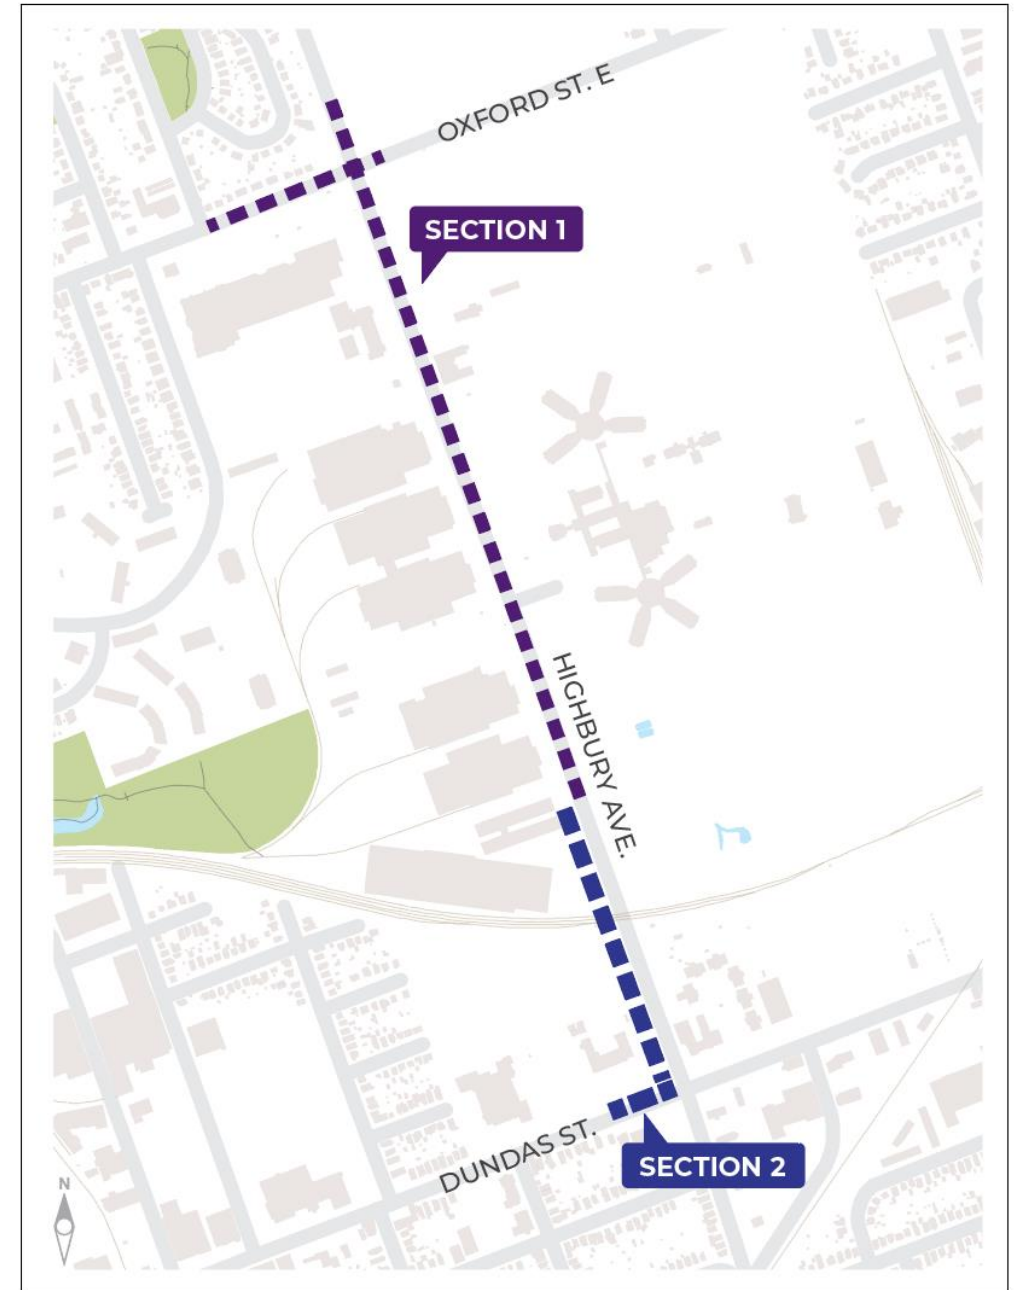

Construction stages

- **Section 1 (shown in purple):**
 - Highbury Avenue from the tracks to just north of Oxford Street
 - Oxford Street from Wistow Street to a few metres east of the intersection
 - Work will continue through the Highbury and Oxford intersection

Construction stages

- **Section 2 (shown in blue):**
 - Highbury Avenue south of the bridge (utility relocations and advance works for Phase 3B)
 - Dundas Street just a few metres east of the Highbury intersection

Anticipated impacts and access

Drivers

- Reduced lanes through the project limits along Highbury Avenue and Oxford Street
- Turning movement restrictions as well as delays
- Access will be maintained to commercial and industrial areas as well as residences

Transit

- Some LTC stops may be impacted while this work is underway. Transit riders are advised to visit the LTC website for service updates during construction

Anticipated impacts and access

Sidewalks

- Sidewalk closures and restrictions may be required during construction
- Safe pedestrian connections and wayfinding signs will be in place to guide people walking around the construction zones
- Sidewalk access will be maintained on at least one side of the road throughout construction

Traffic calming measures

Examples of traffic calming resources

Service interruptions

- Scheduled service interruptions may occur during construction.
- You will be notified in advance via email, or with posted notes to your door.
- Please note that emergency interruptions may also occur during construction.

Supports and communications

John-Paul Sousa

Your Construction Business Relations Coordinator

jpsousa@london.ca | 519-661-2489 ext. 7687

- Discuss construction impacts on your business or property
- Get updates on project progress/timelines
- Notify the City of key dates that are important to your business
- Review options to maintain business access and operations
- Suggest improvements or share construction experiences

Alex Williams, C.E.T

Your Construction Project Manager

awilliams@london.ca | 519-661-2489 ext. 1788

- Get information about changes to the construction site
- Discuss service interruptions
- Coordinate deliveries
- Resolve issues in the construction zone
- Ask about construction processes
- Get in touch with the contractor

Communications resources and enhanced signage

Construction update

East London Link

●●● Connecting our future

November 11, 2022

We're in the final stretch! Crews are focused on buttoning things up before the holidays, and hopefully you're noticing the area is looking less and less like a construction site and more like a road each day.

Storm sewer replacement is now complete in the west end near [Wellington Street](#) and King Street, and work to move and restore Enwave service is underway in this block. Access to King Street continues to be restricted at Wellington Street while this work is being completed, with temporary two-way access available at Waterloo Street for reaching properties within the Wellington-to-Waterloo Street block of King Street.

Sidewalk restoration work is more challenging than usual for crews right now, due to an industry-wide shortage of concrete powder. We are fortunate to work with resourceful contractors who are making every effort to complete as [much](#) as possible this year; however, any areas where we are not able to complete sidewalks will be left as temporary asphalt until we can return in spring to place final concrete. We will provide a final update on areas that will be carried over to 2023 in an upcoming [bi-weekly](#) update.

Following is a summary of work completed over the last two weeks, as well as a look at what's ahead.

We're committed to a safe, clean and accessible construction site.
