HELPING YOU MAKE GREENER CHOICES

NOVEMBER/DECEMBER 2023

Delivery of London's Green Bins started in mid-October

Green Bins are being delivered to about 120,000 households that receive curbside collection of garbage and Blue Box. It will take about two months to complete deliveries. Look inside your Green Bin for all program details.

When you receive your Green Bin, hold onto it!
Green Bin collection begins the week of January 15, 2024.

Collection Changes

As part of London's new Green Bin program, the frequency of collection is changing beginning the week of January 15, 2024.

Your **Green Bin** and
Recycling Blue Boxes
are picked up **every week**

Your **Garbage**
is picked up
every other week

Changes to Collection of Large Furniture and Bulky Items

As of October 1, residents who place their waste at the curb for collection are required to let the City know at least five business days in advance, if they have large items such as mattresses, box springs and couches for collection.

There will be a four-item limit per collection and items will be collected on your next scheduled garbage collection day.
Please schedule in advance at service.london.ca or 519-661-2489.

Visit www.london.ca for more information on environmental projects and programs.

Clean Home Heating Initiative

The Government of Ontario is currently running Clean Home Heating Initiative in collaboration with Enbridge Gas. Qualified households in London may receive incentives of approximately \$3,000 to \$4,500 for installing an air-source heat pump unit with smart controls. These improvements can help our environment and reduce energy costs.

Climate Action at Home

Single-family housing is the second-largest source of greenhouse gas emissions in London. Renovating existing homes with energy-saving improvements can have a big impact and is a priority in London's Climate Emergency Action Plan. Help your home be more resilient to climate change.

A Discussion Primer on London's Climate Adaptation Plan

The **Climate Emergency Action Plan** is the City's first comprehensive climate action plan addressing both mitigation and adaptation.

The Discussion Primer will assist in preparing a Climate Change Adaptation Plan addressing Area of Focus #8, "Adapting and Making London More Resilient" in the Climate Emergency Action Plan.
